The Finest Materials Company

was born from the passion to provide the finest materials with timeless art and design. Bottega means the finest workshop in Italian; a place, where Artisan, the person, who created beautiful art pieces using their hands to create and innovate.

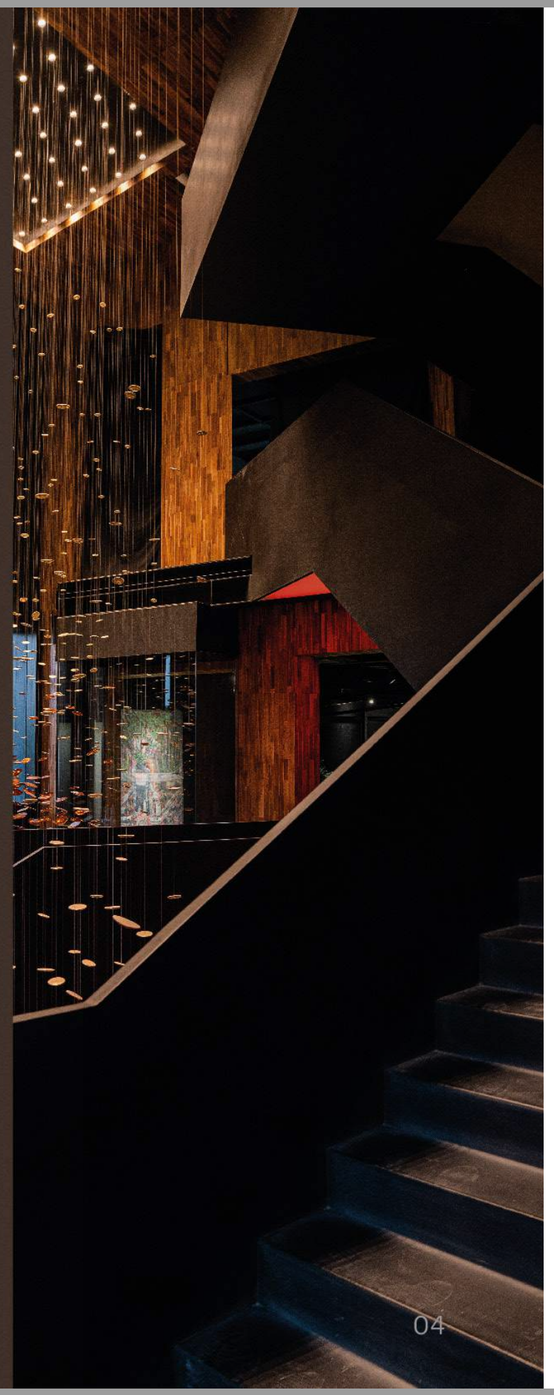
We travel around the world to find the best products that can deliver inspiration, creativity and quality. We are creating the ultimate range of product; sintered stone, porcelain tiles, faucet, sanitary, luxury metal door & window hardware, hand blown crystal lighting, kitchen and home appliances, roofing and many others.

Product for different purposes under different brand, history and meaning; with only one thing consistent between them, the uncompromised quality 'the best of the best' or what we like to say The Finest Material.

Vision & Mission

Bottega&Artisan believes that each product carries different purposes and meanings. We strive for excellence, not only from our product, but also from the process and the little things, such as human touch in our product-making. Appreciation to the quality and design as an art with passion is a form of manifestation of “Trustworthy” that we want to deliver to the customer, making sure that choosing us is an excelent decision.

Our mission is to enhance living by offering the finest materials and solutions for a luxurious and stylish lifestyle. Reliable, efficient & convenient products for truly timeless art and design.



Our Business

Constant quest for excellence to create a refined product collection of art and luxury. We carefully preserved and enhanced our tangible and intangible focusing on quality of our products and services.

We operate a flagship showroom located at Alam Sutera with a branch in Surabaya. We have two distribution warehouses in Jakarta and Surabaya to uphold consistent stock availability of products from various countries.

Our product ordering system is versatile, accommodating both offline and online channels. Visit our showroom where a dedicated sales consultant will guide you through product details and assist with the ordering process and thorough check to guarantee its pristine condition and customer satisfaction.

Alternatively, online orders are facilitated through popular marketplace apps like Tokopedia, Shopee, BliBli, as well as our webstore. Need guidance? Our consulting service is at your fingertips—reach out to our sales consultants through our website or hotline number. They're ready to furnish you with comprehensive product knowledge and assistance.

We stand behind the quality of our products with a limited warranty for all our collections. In the rare event of claim or damage, we prioritize customer satisfaction. Rest assured, any faulty or damaged item will be promptly replaced, ensuring your peace of mind and confidence in our commitment to excellence.

Our Brands

We appreciate design as an art, with passion, delivering the premium solution to any type of application in residential, commercial and public architecture.

ARTISAN

BEAUTIFUL CRYSTALLINE SLAB

The term 'Artisan' signifies a master craftsman, a person who is able to make the ultimate product, which is identified from its Quality, Design and Finish.

Beautiful Crystalline Slab, where we use Dry Granular Powder imported from Europe combined with new technology to create glass-like polishing surface that bears no waviness at all, to create a crystal-clear layer that enhances the design of the slab.

It is without a doubt the ultimate superiority in all aspects giving them the feel of majestic wonder, an evolution over natural stone.

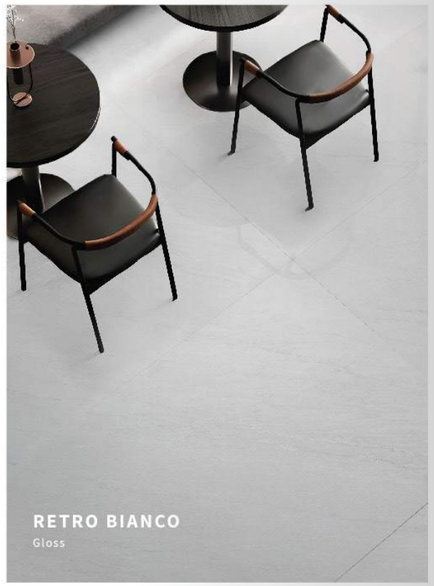
LARGE SIZE
Is the largest tile ever made. Measuring an unbelievable 160 cm x 320 cm, this is where nature meets technological innovation.

SEAMLESS DESIGNS
Mimics the organic patterns of rare natural granite and marbles. The reduction of grout lines gives a flowing, seamless & open look to your spaces.

6 BEAUTIFUL FINISHES
From Crystalline, Lustrous, Mute, Structure, Orgatech, R10.

Italica “Italian Inspired” is a new concept in decorative surfaces with universal potential for the construction industry and residential. Ultra High Intensity Colour is a revolutionary new way to skin architectural surfaces. Breaking the tradition concept of surfaces, Italica is quality and design focus porcelain tile.

ITALICA Ultra High Intensity Colour lights up the passion of colour to reach a new dimension in porcelain tiles. In ultra pure, intense, deep colours are enhanced by the transparency of a highly polished, reflective surface.



ITALICA present a unique collection of Glazed Vitrified Tiles to fulfill the ever expanding needs and expectations of the consumer. ITALICA range of Glazed Vitrified Tiles in an extensive array of exclusive designs in the 600x1200mm & 600x600mm sizes available through a wide distribution network.

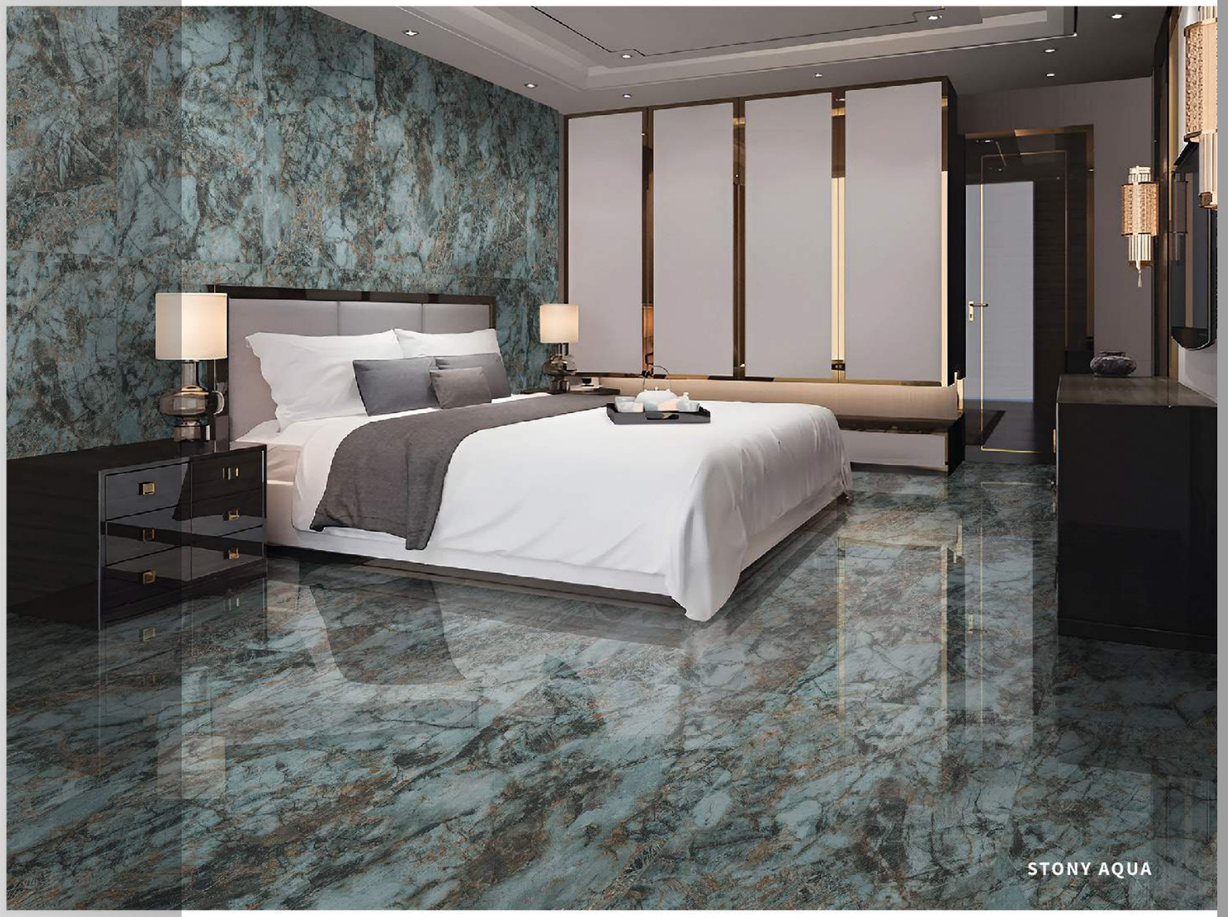
BOTTEGA
LUXURY TILES

The term 'BOTTEGA' signifies the workshop that can make something new. It is a new architectural concept that goes beyond a single slab, it allows designers to reinvent design criteria, giving them the maximum freedom and a minimum of limitations. it is a material that combines the established, classical characteristics with new high performance qualities: strength, lightweight, flexibility and durability. Bringing for the first time small size using Lamina technology. With BOTTEGA we have created a world visually expanded spaces with Super High Definition Printing and Colour Body

Super High Definition Printing is the result of decades of research and improvement in the appearance of man-made tile products. The Super High Definition Printing tile surface glaze is digitally printed on the tiles to allow for greater variety in the colors, textures, and patterns; as well as a higher quality final look.

Colour Body is the top of the range material for ceramic products. It combines unsurpassable technical characteristics with great versatility and aesthetic richness. Colour body perfectly meets the technical requirements of large worksites, adding a touch of great elegance and refinement, through its in depth aesthetic and chromatic research.

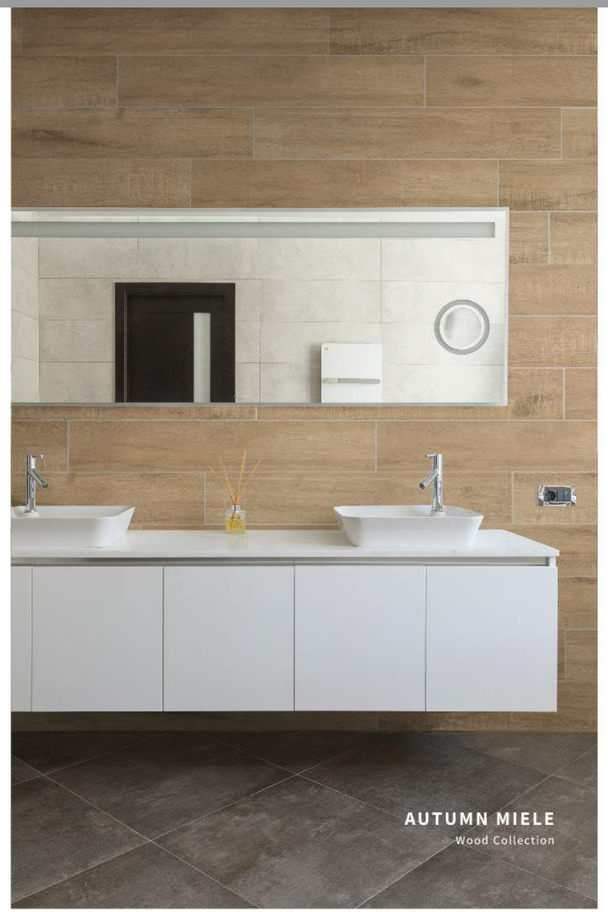
SEA SAND NERO



STONY AQUA

Exotica is fueled to become the celebrated and best designer for ceramic decorative tile. Fuel by passion for art, reputable capability for technical manufacturing processes and visionary for design. Exotica remain as exciting as ever for the modern interior decorators and home or office owners.

The only aspect of the tiles industry which makes you stand out in the crowd of clones is your level of design research. A blank canvas can instantly become a master piece if given to the right artist.

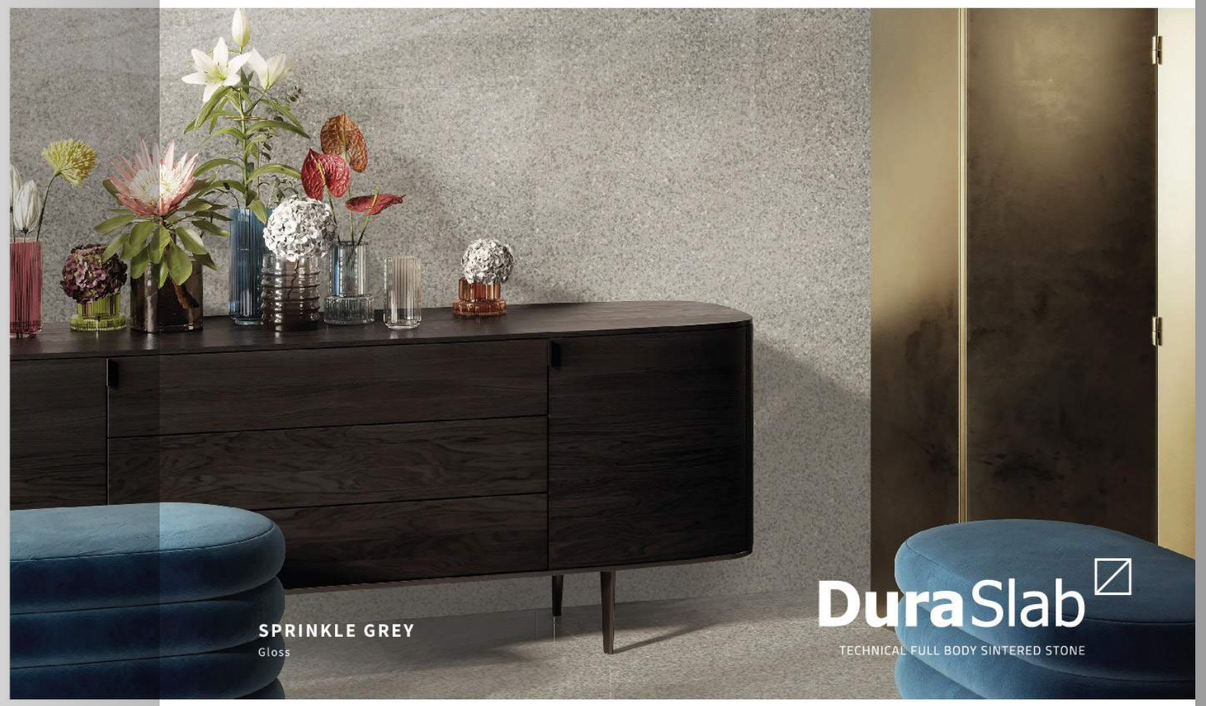


EXOTICA understand the importance of design and quality for designers. There we have invested resources in finding and hiring the best talent available in the industry. Leaving no page unturned to create the best decorative tile. For us, even our basic range needs to be aesthetically at part with the latest trend.

The term “Duraslab” is from the word ‘durable’ and ‘slab’, so foremost we believe on the strength and durability of our product. We are here to offer full body sintered stone slab, with the latest technology that are able to replace Natural Stone, Quartz, Solid Surface and other materials.

Duraslab offers a solution to the most exacting technical standards possible in the market now. With full body (through-body) structure that has less than 0.1% absorption, colour and design throughout its center mass. The homogeneity of its shape means that it is a one-off element that is equally uniform and resistant throughout. This product stands out for its versatility and the possibilities it offers for use under any conditions, however extreme.

We have 0% porosity and use certified Nano chemical wax with warranty of 5 years. Our tiles are produced under 1200 Degrees Celsius heating process, thus will not break under normal usage of kitchen. Giving Duraslab durability like no other surfaces. It is scratch resistant; you have the freedom to use your knife and other utensils on our surface.
Duraslab is the future of surface for every rooms, ideal for: Bathroom, Kitchen, Facade, Furniture and many others.



NIO
Smart Faucet

MOEN

The #1 faucet brand in North America, Moen offers a diverse selection of thoughtfully designed kitchen and bath faucets, showerheads, accessories, bath safety products, garbage disposals and kitchen sinks for residential and commercial applications each delivering the best possible combination of meaningful innovation, useful features, and lasting value.

WALDEN

Riobel takes an industry-leading and progressive approach to design, marrying brilliant function with modern simplicity and elegance. Driven by a deep understanding of consumer needs, Riobel continually seeks to hone its solutions through a combination of modeling and state-of-the-art testing. This quest is fueled by a passion to honor the principles of distinctive design. The result is a superior experience, where refined aesthetics serve a purpose and make a distinctive, modern statement.

Riobel offers ecological products that contribute to a reduction in water consumption without compromising their efficiency. They are even more eco-friendly than some certified products. Theses Riobel products save water and are therefore ideal for projects that are more mindful of the environment.

ROHL– a company whose mission for decades has been to discover exceptional, authentically luxurious products for the kitchen and bath – features products crafted in the towns and villages of Western Europe, New Zealand and North America. Each has a story all its own.

At ROHL®, we have an eye for the exquisite and a passion for the uncommon. We work closely with designers from around the world who create collections gleaned from timeless classicism, modern styling, and novel innovation. With consummate attention to detail, and an appreciation for technical performance and fine craft, we bring what would be inaccessible within reach.

Authentic Luxury is where original design and a commitment to craft come together, connecting touch of hand, truth in materials, and place of origin.

BUTLER
Bathroom Sink

Shaws of Darwen have been producing timeless, iconic, fireclay products at our premises in North West England since 1897. Every one of our uniquely beautiful, practical, handmade sinks carries an impression on its base of the name of the master craftsman who created it. This, along with our Certificate of Authenticity, is your assurance that your investment has been handcrafted to give a lifetime of service and pleasure.

Our unique, fireclay sinks are still lovingly produced in the same quiet corner of North West England. Every handmade sink we make still carries an impression on its base of the name of the master craftsmen who created it. Our artisan products have become design icons and are found in beautiful kitchens all over the world, whilst our new bathroom collection is inspired by designs from our archives, re-envisioned for 21st century living. Our sinks are handcrafted for life - and yours to treasure for years to come.

victoria + albert®

Victoria + Albert brings you a beautiful line of freestanding and undermount tubs and sinks for your bathroom to match your individual style, utilizing natural materials like Volcanic Limestone™ for superior performance and the assurance that you own the very best. At the forefront of innovative luxury bath design.

Volcanic Limestone ™ is Victoria + Albert proprietary name for the very special white rock that is perfect for making bathtubs and vessel basins.

This is formed when the elemental forces associated with liquid magma acts upon surrounding soft, chalky limestone. The immense heat and pressure from the magma transforms the neighbouring rock into a new material made up of incredibly hard strands. Blends milled Volcanic Limestone™ with high quality resins to bind these strands into a complex 3D matrix. The finished result is ENGLISHCAST™ – a world class composite with an exceptional strength to weight ratio.

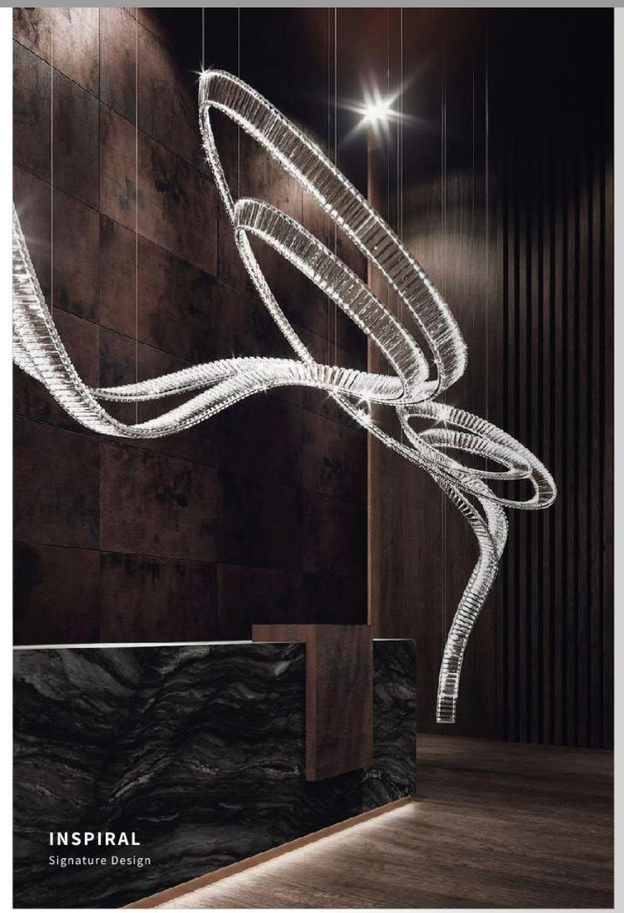
FROSTY LEAVES

Following the tradition and precious heritage of master glass-makers, we enrich it with new approaches, concepts, techniques and technologies that make it possible to push the limits beyond the seemingly impossible. Using fire and water, and combining craft and new technologies, our team of glass-making enthusiasts creates works that, besides being functional, are an embodiment of beauty, express values and are sources of unforgettable experiences.

Thrill from crystal clear glass. Fascination by the fusion with light, and love of traditional craft are something we share. Combines many years of experience, a knowledge of traditional as well as new technologies, and an original approach to production. We are thrilled to carry out grand, unique projects focusing on light objects, exclusive light fixtures and luxury interior decoration features.

CONTEMPORARY LIGHT FIXTURES Imaginary limits are a challenge for us. Glass in its many forms enables us to develop and create the unimaginable. It is a living substance that has a tremendous potential for shapes, decorations and visual effects. It lets us express emotions, give form to a thought and turn a dream into reality. All this gives our light fixtures an expression that co-creates the personality of the target destination.



PRECIOSA

Preciosa create unrivaled emotional experiences by combining the traditional artform of chandelier craftsmanship with cutting edge technology. This knowledge is what drives our intention to unveil the symbolic as well as the aesthetic power of decorative lighting. It led us to create Preciosa's Signature Designs which are highlighted by countless customization possibilities to perfectly fit the owner's desires.

What makes a Signature Design so strategic is the variations that can be developed. Each concept offers different scales, compositions, colours, materials and surface finishes, construction principles and illumination methods.

Signature Designs enrich the vignette of a space to create unexpected emotions that become etched in people's memories. This is the highest level of chandelier cultivation - to create connecting experiences through light.

HANAMI

Barovier&Toso

VENEZIA 1295

In seven centuries of history, we have seen fashions come and go. Some were minimal, others more baroque, but every one of them chased time in a desperate search for the “new.”

Time in Venice, instead, goes by slowly. There is no rush, no craze, just a great deal of space and time to develop your craft. So we took our time and in that

ALEXANDRIA

CAMPANULA

time we have learned that we would rather do something unique and enlightening that lasts forever instead of something new that only fascinates you for one season.

It takes strength to bring glass out from the fire and heat. It takes patience to strive for nothing less than the perfect shape. And it takes heart, a lot of it, to grow a legendary luxury lighting tradition into the new world, working with innovators and traditionalists alike. But again, we can afford the luxury of time.

PullCast was born digging deep into the wonders of nature by a jeweller and a designer, which adore collecting objects from outdoor experiences.

Crossing the worlds of jewerly and design only led to a path of exploring new aesthetic design approaches with architectural and artistic strong influences. Expect to find diverse ranges of styles on collectable sculptural hardware, wide spreading a sense of rarity and legacy, grounded by ancient forms of craft.

As artists, we are dedicated to crafts and surrounded with craftsmen with great expertise, passionate about their art and your art. A true atelier, in search of the most high-quality materials and processes to translate exquisiteness and exceptionality to our jewerly.

Effortlessly we craft handmade customization, treasuring the creation of a bond with our customers. Handcrafted in Portugal and sold worldwide, we actively combine the use of noble materials with artisanal skills and techniques, favouring distinction.

Enter in a voyage with us, outlining the quintessence of your designs.

SUN VALLEY BRONZE

Sun Valley Bronze has several internal material and assembly differences that make our hardware innovative, longer-lasting and of superior quality. Innovation in design, both aesthetic and functional. Precision machining and practical engineering ensure our products are of superior quality throughout. Designs for longevity, using only the finest grade bronze for castings and stainless steel for internal mechanisms. All machining is performed on state-of-the-art equipment, capable of meeting tolerances to 1/10,000th of an inch, producing un-compromised quality and lifelong performance.

Each piece of Sun Valley Bronze hardware is made of the finest quality art grade bronze with stainless steel mechanisms, offering timeless beauty, durability, weather resistance and anti-microbial benefits.

Sun Valley Bronze display a variety of styles and patina choices. Whatever your project, residential or commercial, it is easy to mix and match designs and finishes.

GAGGENAU

Gaggenau Design as artistic engineering. The creation of the appliance begins with the grounded concept of function. The design must perform exceptionally and unfailingly. The designer's vision facilitates this function, yet inspires so much more. It can challenge engineering, it can innovate, but only in order to genuinely benefit the design conscious private chef. This is functional objet d'art.

Whether we are expertly guiding the latest laser cutter or painstakingly hand polishing, there is always an invaluable return upon the investment of so many skilled man-hours into our work. That is, the creation of a product with something akin to a soul.

The professional kitchen principle is our foundation. Professional equipment, much like ingredients, must be of the highest quality and add something to the final dish. We use the same approach for the private kitchen, but with the added aesthetic consideration. Given these means and the passion, the private chef can produce professional results, time and again.

Your Partners for Peace of mind. At Bosch Home Appliance, a legacy of quality and excellent service meets innovations that are invented for life. our High Quality home appliance make everyday easier and more enjoyable. Discover a range of clever solutions and attractive designs to suit every home.

To enhance people's lives by developing products and solutions for a quiet, healthy and stylish home. You can always count on our home appliances to be reliable, efficient and a joy to use – for perfect results and peace of mind.

Bosch home appliances are built to last, even being handed down from one generation to the next. But reliability extends beyond our products. Our award-winning customer service provides peace of mind and expert support – whether you're planning a kitchen for your own home or a large residential project.

ARAKAWA developed first the gripper mechanism in the world in 1975.

Adjustable along the cable with one push locks without set screw. Can stop anyplace you would like to hold easily!!

High quality & quality control. The only manufactures of grippers which have own factory including machine tools ,assembling and inspection in the world. Inspect all pieces before shipping the factory in Japan. Ensuring Reliability & durability.

Place orders for materials, machine, assemble, inspect and ship our items, and also design and develop our products here. With the latest equipment and select materials, high quality products are manufactured by experienced engineers who have advanced machining skills. Ongoing efforts include saving time and reducing manufacturing cost so we can increase productivity and maintain constant supply of products.

Secco Sistemi's product range includes windows, doors, curtain walls, and sun shading systems. Our products are known for its expertise in steel and bronze profiles and its ability to provide customized solutions for architects and designers.

Our products are designed to meet the most demanding technical and design requirements. They are characterized by their high level of performance, energy efficiency, and aesthetic appeal.

Secco Sistemi has a strong focus on innovation and sustainability, and its products are manufactured using eco-friendly materials and processes. We are having a global presence and collaborates with leading architects and designers around the world to create unique and inspiring architectural solutions.

We are committed to excellence in every aspect of its business. From its products to its services and its focus on innovation and sustainability, we are a leader in the field of high-end architectural systems.

WOOD LUMBER CEILING

WOOD SLATS

BOTTEGA WOOD

NATURAL LUXURY

Bottega Wood give natural elements into occupancy to create warm and natural atmosphere with quality selected material. The wood selection which is specially produced with elegant design makes every expanse have its own beauty. Wooden tiles give quality solid wood that is selected from the best wood of Indonesia that would be presented in your occupancy. Our specialization is producing flooring, decking, stair trap, lumber ceiling, wall panel, and solid door wood. Wooden tiles would be the best investment of your occupancy.

Bottega Wood are precisely applied for both indoor and outdoor room with various sizes and motives. Our wooden tiles team has done such kind of bed room, family room, and many kinds of public room according to the desires and needs with the best quality. Customers' satisfaction becomes the major priority of wooden tiles to keep developing and giving the best service.

LUDOWICI®

Trusted. Timeless. Terra Cotta.

Built on over 130 years of meticulous craftsmanship and innovation, Ludowici has a long-trusted reputation for developing exceptionally beautiful architectural terra cotta products that last for centuries.

Terra cotta by its very nature is warm, earthy and inviting. Enhancing the natural qualities of terra cotta by adding a glaze mixture prior to firing can create spectacular colors that cannot be replicated on other materials like asphalt, synthetics, wood or concrete.

Creating the color of a terra cotta roof tile is part science and part art. A range of tones always exist within any given color — it is impossible to produce a monochromatic terra cotta roof tile. The range of tones that arise from the manufacturing process is a normal and very desirable feature of natural clay tile, imparting richness, character and a more dimensional appearance to the roof.

Custom craftmanship Ludowici's product line can be infinitely customized and handcrafted to the finest detail to match any color or fit any architectural style — from modern to old-world.

TERREAL

For over 150 years, TERREAL is a key player of clay building materials. Terreal has been creating responsible solutions by capitalizing on the beauty and durability of clay, as well as on the innovation of solar energy. Based on this unique experience, our group creates innovative solutions for the building envelope, and one of them is roofing.

At TERREAL, we offer complete solutions to create roofs that marry technical performance with long-lasting beauty. Our extensive range of products is ideal both for bold contemporary roof designs and for more traditional roofs that blend in with local styles and heritage.

Terracotta tiles each have their own shades; thus the roofs never represent a monochrome aspect. The roofer, holder of the rules of the art, will know how to mix them to obtain a harmonious effect.

CREATON®

Although we did not invent roofing, we have perfected it. Of course, we did not invent roofing. Nor did we invent the plain tile or concrete roof tile. The Romans were the pioneers more than 2,000 years ago with their Monk and Nun tiles. And the first plain tiles have been on the roof of Nuremberg Castle for more than 1,400 years – long before our company came into existence.

But we can say with pride: For more than 130 years, we have changed and driven many things forward. We have shaped the market with our innovations. We have shifted perspectives: away from the purely functional view of roofing to a comprehensive solution mindset. We have set standards.

What was required? A consistent commitment to the highest quality. Bold, pioneering decisions. And, an awareness of our roots, which are in a small family business in Wertingen, Bavaria – where CREATON still has its headquarters.
